## Goji Anti Oxident 10x50g

Box of 10x50g Ultra

### GOJI ANTI OXIDANT Replaced Cranberry Peel Off Mask

With highly-concentrated sea buckthorn and goji extract.

GOJI ANTI OXIDANT is the peel-off mask for skin regeneration. Its high content of sea buckthorn oil alleviates even the most intense skin irritation, simultaneously promoting the skin's natural protective barrier. In parts of Europe and Asia, precious sea buckthorn oil is used as a wound-healing substance to combat burns caused by UV light and acne. As a natural radical interceptor and antioxidant, this mask's gojiextract ensures that the skin's natural protective function is improved. Thanks to its vitamin C content, the antioxidant peel-off mask is also an ideal supplement to a regeneration treatment. Following treatment with GOJI ANTI OXIDANT, your customer will be thrilled by her newly obtained fresh and even complexion.

### Function

Improves the skin's natural defense and protective function
